

Akademiska Hus new customer service – an easy way to the right help

Starting November 1, Akademiska Hus has a new centralized customer service, available to everyone who works or studies in our properties.

This means you can now contact us for assistance at one unified number. While you can still report issues via our website or the Mitt Campus app, you now also have the option of reaching out to our customer service team for personalized help.

Feel free to contact us the next time you have a question!
