

Discover what's new in spatial biology | Karolinska Institute

PLEASE JOIN US!

Join our in-person seminar at the Karolinska Institute to explore how Bruker Spatial Biology's powerful platforms can extend your research possibilities from high-plex multi-omic spatial biology to spatial cellular and subcellular analysis.

Together with the team of KIGene, we will showcase how both the GeoMx® Digital Spatial Profiler and the CosMx® Spatial Molecular Imager are advancing research.

EVENT DETAILS

9.30 -9.40 Welcome and introduction to KIGene Core Facility
9.40- 10.10 Introduction to GeoMx DSP – Christoph Koenig
10.10-10.30 Presentation of scientific project from KI using GeoMx
10.30-10.50 FIKA
10.50-11.30 Introduction to CosMx SMI & AtoMx SIP – Christoph Koenig
11.30 -12 Q&A session

For more information or to RSVP, please contact:

Reija Laitinen (reija.laitinen@bruker.com)
Project consultations can be booked by contacting Reija Laitinen

DATE & LOCATION

Thursday November 28th,
2024
9.30-12h
Peter Reichard Lecture Hall,
3rd Floor, Biomedicum
