

**Welcome to the 5<sup>th</sup> annual  
KI–SciLifeLab Symposium  
May 7, 2026 — Jacob Berzelius, KI Campus Solna**

**Program**

- 11:30      **Registration and lunch**
- 12:15      **Welcome from the SciLifeLab Committee at KI** (*Lars Holmgren, Carsten Daub*)
- 12:30      **Anna Lindstrand**  
*Completing the Picture: Long-Read Sequencing, Reference Genomes, and Multi-Omics Strategies in Rare Disease Genomics*
- 12:45      **Florian Rosenberger**  
*Dissecting disease one cell at a time with Deep Visual Proteomics*
- 13:00      **Kathleen Watt**  
*Dissecting the coordination of adaptive gene expression programs in hypoxia*
- 13:10      **Sonia Corral Leal**  
*Mapping B cell specificities in breast cancer*
- 13:20      **Claes Hultling**  
*Inspirational keynote speaker*  
*Back to Life: Defining Quality of Life After Spinal Cord Injury*
- 14:00      **Coffee break / Fika**
- 14:30      **Andrea Sottoriva, Human Technopole, Milan**  
*International Scientific Keynote speaker*  
*Measuring and predicting genetic and epigenetic cancer evolution*
- 15:15      **Cecilia Williams**  
*How sex differences and hormonal signaling impact colorectal cancer*
- 15:30      **Emma Andersson**  
*Towards a blueprint of life: an omics-scale approach to resolve mammalian development*
- 15:45      **Bennie Lemmens**  
*Targeting DNA replication at its root: from genetic tools to cancer treatments*
- 16:00      **Wrap up and walk to SciLifeLab**
- 16:15      **Poster session and voting**  
*SciLifeLab Delta*
- 17:00      **Poster prize announcement & Mingle**  
*SciLifeLab Delta, Gamma 2*
