

KIGene Presents: PromethION Sequencing Launch Day

Center for Molecular Medicine, L8:00

Time:
13:00-16:30

Date:
Wednesday 23 September
2026

Register now

Scan QR to register

Join us at the Center for Molecular Medicine (CMM) at Karolinska Institute, Stockholm, to explore the possibilities of Nanopore sequencing using the newly-installed PromethION 2 Integrated device at the KIGene core facility. During the afternoon you will learn about the key insights you can gain from sequencing on PromethION, and have the chance for 1:1s with Nanopore experts to support your own project planning.

[Please note: agenda may vary.](#)

Welcome & Refreshments
13:00-13:30

Light lunch, and an opportunity for networking

Introduction to KIGene Core Facility
13:00-13:45

KIGene team
Learn about the services on offer from your core facility

Introduction to Oxford Nanopore Technologies
13:45-14:00

Dani Hatton, Penelope Shah, & Felicity Ford
Meet your local Oxford Nanopore team and recap the basics of Nanopore sequencing

Technological Advancements to Nanopore Sequencing
14:00-14:45

Christos Coucoravas, PhD
Scientific updates from your local Nanopore Field Application Scientist

Guest Speaker 1: TBC
15:00-15:30

TBC
