

INPP meeting #5

November 4th, 2026

9:30 am – 2:30 pm (Swedish time)

Clinical Psychiatry at Karolinska Institutet
Stockholm, Sweden

9:30 – 9:40	Opening remarks (10') O Steffen (Head of International Relations, Inserm) N Jayaram-Lindström (Director of the Center for Psychiatry Research, Karolinska Institutet)
9:40 – 10:00	Programme presentation: scientific programme and developments in the French precision psychiatry landscape (20') PM Llorca and MH Soto (Inserm)

INPP Joint PhD Projects – Scientific progress and cross-country collaboration

PhD student-led presentations: 20' presentation + 10' discussion per project

10:00 – 10:30	France/Sweden joint PhD project: <i>Severe sepsis and septic shock in patients with severe mental illness: a pharmacologic, immune and health service research approach</i> L Boyer (PI, Inserm) / J Tiihonen (PI, Karolinska Institutet) / Y Brousse (PhD student)
10:30 – 11:00	France/Norway joint PhD project: <i>A multidimensional study of NK cells in schizophrenia, bipolar disorder and autism spectrum disorders</i> V Vieillard (PI, Inserm) / Ole Andreassen (PI, Oslo University) / M Apavou (PhD student)
11:00 – 11:30	France/UK joint PhD project: <i>Psychiatric Immuno-genetic imaging</i> M Leboyer (PI, Inserm) / N Harrison (PI, Cardiff University) / J Chabert (PhD student)
11:30 – 12:00	France/Canada joint PhD project: <i>Impact of nitric oxide (NO) on mother-newborn brain synchrony: an electroencephalographic hyperscanning study</i> R Jardri (PI, Inserm) / G Dumas (PI, Université de Montréal) / M Gautier-Martins (PhD student)
12:00 – 12:30	Network coordination: budget distribution, next steps and discussion (30') O Steffen, L Kliemann (Inserm)
12:30 – 12:40	Closing remarks (10') PM Llorca, Programme Coordinator (Inserm)

Afternoon: visit of the Karolinska Institutet labs and facilities (Department of Physiology and Pharmacology - Applied Developmental Neurobiology, Carl Sellgren Research Group - Alessandra Rigamonti)

19:00 – 21 :00	INPP network diner
----------------	---------------------------

French-Swedish Symposium

November 5th, 2026

9:30 am – 5:30 pm (Swedish time)

9:30 – 9:45	Opening remarks (15') O Steffen (Head of International Relations, Inserm) J Tiihonen (Professor, Department of Clinical Neuroscience, Karolinska Institutet)
9:45 – 10:15	Keynote (30') – <i>Artificial intelligence in psychiatric epidemiology</i> Johannes Lieslehto (Karolinska Institutet)

Coffee break (15') – 10:15–10:30

Population-scale precision psychiatry: real-world evidence and somatic trajectories

10:30 – 11:00	<i>Real-world effectiveness of pharmacological treatments of severe mental disorders (30')</i> Jari Tiihonen (Karolinska Institutet)
11:00 – 11:10	<i>Presentation EU-MIND: Addressing the Physical Health Gap in Severe Mental Illness Across Europe (10')</i> Laurent Boyer (CEReSS, AMU, Inserm)
11:10 – 11:30	<i>Mortality in Severe Mental Illness Across Europe (20')</i> Heidi Taipale (Karolinska Institutet)
11h30-11h45	<i>From Evidence to Consensus: European Priorities for Integrated Physical and Mental Health Care (15')</i> Esther Touitou / Coralie Gandré (IRDES)
11h45-12h00	<i>What Would People Pay for Better Integrated Care? Economic Value and Societal Preferences in Europe (15')</i> Sandrine Loubière / Éloi Fournier / Owen Taylor (CEReSS, AMU, Inserm)

Lunch break (60') – 12:00–13:00

Next-generation precision psychiatry – Early-career research showcase

13:00 – 13:15	Bergný Armannsdóttir <i>"Psychotropic Medication Use and Risk of Sickness Absence in Bipolar Disorder"</i>
13:15 – 13:30	Shokouh Arjmand XXXX
13:30 – 13:45	Sohvi Ohtonen XXXXXX
13:45 – 14:00	PROPSY – Jan Berkehan Erkilic <i>MetaboPsy – Immuno-metabolic abnormalities in major mood and psychotic disorders: a transdiagnostic dimension</i>
14:00 – 14:15	PROPSY – Noé Igounenc <i>TRANSPSY-S – Precision suicidology: normative modelling and large-scale validation in bipolar disorder and schizophrenia</i>
14:15 – 14:30	PROPSY – Valeria Finelli <i>INTRUDE – Personalized real-time fMRI neurofeedback for treatment-resistant auditory hallucinations in schizophrenia</i>
14:30 – 14:45	PROPSY – Claire Altersitz <i>From a 10-gene blood signature to targeted treatment in depressive disorders: preclinical validation of GRM7</i>
14:45 – 15:00	PROPSY - Océane Dufrenne <i>Cerebellar correlates of cognition using multimodal MRI in a transdiagnostic pediatric sample</i>
15 :00 – 15:30	Joint discussion: From biomarkers to clinically actionable precision psychiatry (30') <i>Moderator(s) to be confirmed</i>

Coffee break (20') – 15:00–15:20

INPP International Early-Career Forum

15:20 – 16:20	Optional invited contributions from INPP international co-leads (60') Up to four early-career researchers may be nominated (10' each). There is no requirement for each co-lead to nominate a speaker; any unused presentation time will be added to the discussion. <i>Discussion and cross-country exchange (minimum 20')</i>
16:20 – 17:00	Round table: Building a shared INPP research agenda – cohorts, data, biomarkers and training (40') INPP scientific co-leads and invited speakers
17:00 – 17:30	Conclusions, next steps and closing remarks (30') PM Llorca (INPP Scientific Coordination, Inserm) XX (XX, Karolinska Institutet)
